An act to amend Sections 1596.955 and 1596.956 of the Health and Safety Code, relating to care facilities.

### LEGISLATIVE COUNSEL'S DIGEST

AB 762, as amended, Mullin. Day care centers: ~~integrated licensing.~~  
*toddler programs.*

Existing law, the California Child Day Care Facilities Act, provides for the licensure and regulation of day care centers by the State Department of Social Services. Existing regulations require a separate license to be issued for each component of a combination center, and establishes teacher-child ratio requirements. Existing law requires the department to develop guidelines and procedures to authorize licensed child day care centers serving infants or preschool age children to create a special optional toddler program component for children between 18 and 30 months of age, and requires the program to be considered an extension of the infant center or preschool license. Existing law makes

it a misdemeanor to willfully or repeatedly violate any of these provisions or a rule or regulation promulgated under these provisions.

This bill would require a day care center with a toddler-component program to extend the toddler-component program to serve children between 18 months to and 3 years of age, and would make conforming changes relating to the guidelines and procedures the department is required to develop. By changing the definition of an existing crime, the bill would impose a state-mandated program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 1596.955 of the Health and Safety Code
